A Week of Profit Sharing With Our Friends

GEORGIA enters upon her greatest era of prosperity. Bank elearings are the greatest in our history. Bank deposits are beaviest in our history. Bank deposits are beaviest on record. Crops are phenomenal. Cotton will bringin about two hundred millions of dollars into the State. The corn crop breaks all previous records. We have been bountifully blessed. Georgia—and Atlanta most of all—will benefit by this unparalleled prosperity. All the merchants will profit greatly; the large department stores possibly most of all. Wishing our friends to share our blessings, we have set aside this week as

If Coffee Don't Agree **POSTUM**

A prominent Philadelphia physician says :

ff on discontinuing coffee, you feel tired, languid, and out of sorts, the coffee had better be forever discontinued, for you are on the verge of inebriety."

A roch, nourishing food-drink, with a delightful flavour much resembling high grade Jesse. Postum is made from prime whole wheat, and a small per cent of New Orleans molasses. Contains no caffeine or any other drug.

Postum comes in two forms.

Regular Postum requires fifteen to twenty minutes boiling to bring the rich flavour and food value.

Instant Postum requires no boiling, but is made instantly by stirring a teaspoundil of the soluble powder in a cup of hot water and adding cream and sugar to taste.

Drink it instead of Coffee,

It is impressive, and did one stop to reflect on its meaning, it would teach a fine lesson to

the woman who has not yet been "suited."

Back of all these hundreds of suits that we will show to-morrow is a fine amount of confidence, of confidence in the women of Atlanta and in the styles, the desirability of these suits.

We know the suits are right, we know they are such that Atlanta women will want once

The suit buyer is now in New York and these are the evidence of his labors.

If there is one term that comes closest to describing what the suits are, it is

Novelties

These are novelties of the latest moment, and the cry is for novelties---it seems an echo to the voice of the good Dame who rules the fashions.

It may be a novelty because it is a velvet suit, because it is fur-trimmed, because it shows an odd little vest, because of its Oriental trimmings, because of the very graceful and unusual draping of the skirt---the advertising pen has had no such task before it this season, it outlines weakly the picture that you will see here.

Let it attempt another method These suits are from New York's **stalwarts** in the suit-making business, from those men who stand head and shoulders above the ordinary, who do things in a successful way. And, to make suits in this fashion, means that one must keep in

No Cowardly Repeal of Our New Shipping Policy! No Surrender to Foreign Threats!

Face must be no strong of the American merchan marine flag! There must be no repeal of the 5 per cent discrimination provided by the new tariff law in favor of American shipping! There must be no interpretation of that clause—the most important and about the only beneficial clause in the new tariff bill—that will nullify the expressed intent of Congress to begin the restoration of the American merchantism on all the seven gen in resonance of the American merchanisms of all the seven ceast! There must be no afrighted retract in Washington BE CAUSE THE PERSENT ADMINISTRATION HAS DECIDED TO DO NOTHING THAT MAY BE DISPLEASING TO GREAT BEITAIN!

CAUSE THE PRESENT ADMINISTRATION HAS DECIDED TO DO NOTHING THAT MAY BE DISPLEASING TO GERAT LERITAIN!

Of course the foreign protests will come. They began coming the instant foreign governments learned of the criticence of this provision in the earliest drafts of the tariff bill. Now they are being repeated and pressed. The million dollars a day thai. America is paying foreign shipmowers for carrying its overage accommerce is worth protesting about. It is worth fighting for its experiment of the control of the

thesed even after the parage of the tariff law carrying his hope to our life afoct. And the pressure has come swiftly, imperiously, and acusting.

The tree ships' which we are told we have guaranteed by more than teaching treating, early all negotiated before 1850, long ago became a dead phrase owing to the devious methods of government which have made little or no effort to live up to the spirit of the agreements. Great Britain subsidizes its vast merchant fleets in many ways, going so far as to lend its millions for this construction of Gunard monater vessels on the eastest possible terms. Germany, with its government covered introduction of the construction of Junard monater vessels on the eastest possible terms. Germany, with its government covered introduction of the construction of Junard monater vessels on the eastest possible terms. Germany with the government covered in the capture of the copy of the passage of the bill, there is talk of repealing THE BEST PART OF IT. In this talk he Administration and the Blate Department appear to lead. But it was understood that the President and the State Department fully concurred in the settlements at the final tariff conferences. WHAT 18 THERE TO JUSTIFY SO SUDDEN AND COWARDLY A SURREMORN.

Is IT THE LAMENTABLE BUT OBVIOUS FACT THAT ALL THAT 18 DISPLEASING TO ENGLAND?

Is it that Germany has gone so far as to declare that she will not even consent to an interpretation by United States out of the scope of this decriminating section of our tariff? Does Germany, one of whose steamship companies sold to Spain, during the Spanish American, warr, a number of its vessels that had been rading with America, think that the United States has no rights upon the seas? Has the 'mained fatt' the same amater influence of 18 vessels and home-

The Washington as it has in Pekin?

Or is it that France, paying her vessels a navigation bounty of 31.5 cents a ton on each hundred miles outward and homeward—a bounty that drove many an American ship off the Pacific—has threatened to relatinte?

Or, if it be true that France and Russia and Brazil are the only countries that will be especially burt, is not the answer plain? That if we must begin by building up our merchant marine at the expense of France and Russia and Brazil, it is a pericely legitimate commercial policy, which this small beginning will enable us in due time to use with England and Germany and the rest. That ultimately existing treaties must be amended or abrogated so that the American ship shall not rot in its dock.

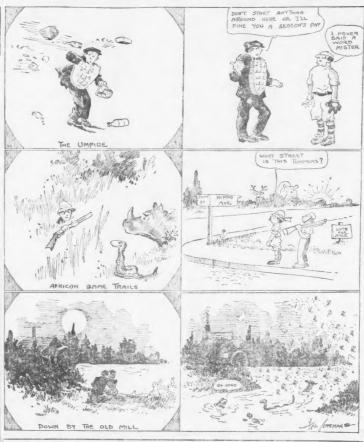

On a this tails of a paintery retreat due to the begrouding of an million delibers from the new tainff revenue, a sum which claimed will be temporarily sacrificed? What are these ten lones against the three hundred millions we pay annually to right slapp? What are these ten millions against the first real rit in half a century to re-establish a merchant marine that been starved almost to death?

This tariff bill has been passed without any provision for Centimed in Lat Galumn.

that "reciprocal interchange of tariffs by which untold millions might have been saved to our people." It seems small and weak and coutemptible, now, for the sake of a questionable loss of a few millions, to throttle this hopeful step toward the saving of multiplied millions and commercial freedom for America on all the scas.

The country will stand against its cowardly repeal or any un-American act of surrender, and will not forgive the men who would strangle the most vigorous American policy of a decade.
